

END OF LIFE NOTIFICATION

Title	Discontinuance of 5 x 7mm CMOS ceramic surface mount Oscillators for 5.0 Volt operation above 70.0 MHz.
Article:	<p><u>Products Affected:</u> Pletronics SM77xxD (DE, DES, DS part numbers only) product series 5.0 Volts above 70.0Mhz.</p>  <p><u>Reason:</u> IC no longer available for 5.0 Volt operation above 70.0Mhz</p> <p><u>Alternative Sources:</u> For many designs, 3.3V CMOS devices will drive 5.0V circuits correctly.</p> <ul style="list-style-type: none"> • In the case of CMOS inputs this will have reduced noise margins. • In the case of the TTL the logic levels would exceed the TTL 2.4V logic '1' minimum level. <p>3.3V high frequency parts are readily available</p> <p><u>Last Purchase Date:</u> November 5, 2009 or until Pletronics stock has been depleted.</p> <p><u>Last Shipment Date:</u> November 5, 2009 or until Pletronics stock has been depleted.</p>
